

Peter Kerestes, Chief Executive Officer

Hello and welcome to our third edition.

Key Initiatives

- Code of conduct

We completed the training sessions in February 2011. Everybody now has the responsibility of completing and lodging the questionnaires. They will then form the basis of the offer to become recognised under the Code.

The ACCC has accepted the Code of Conduct, even though we don't come under their jurisdiction.

AHIA has also recognised it.

- Documents

All our documents are now on a website.

Waynecooperconsulting.com.au/clients, your personal email address, phiicode2.

We are working on having a members only site on our website containing all these documents but in the meantime use the one above.

- Rebate Legislation

It is possible to pass legislation in one house in the first half of the year and the second half of the year the other house.

Most of the attention is being focussed on the lower house with all it's independents. It may not pass but the government's intention is to introduce the changes again.

Other

We'd love to hear your feedback so don't hesitate to contact me.
